The two regiments are believed to have an authorized strength of 10k planes. It is believed that aircraft of a unit stationed at another airfield were parked in Doeberitz airfield. COMPTIDENTIAL CLASSIFICATION **CLASSIFICATION	1. On 18 April 1951, between 12:15 and 3 p. m., 83 single-ongine ground attack aircraft were parked in two rows on the northern edge of the Doeberitz airfield. Forty-three planes of the same type were observed on the southern edge of the field. Probably all of the planes available at the field were not seen since the hangars were closed and the southern area could not be observed. * Several groups of soldiers who were flying suits were seen marching between the field and the barracks buildings of the former Elsgrund fliers' camp. There was no flying at the field betwee 15 and 21 April. 2. On 20 April, a wrecked aircraft with dismantled wings was seen on the norther edge of the field. About 8 to 10 men wearing flying suits were encaged in moving the fuselage. The plane was a two-seater the blades of the propeller were twisted. 3. Many EM were seen in the barracks installations at the field. Some soldiers, who were light blue epaulets, mounted trucks which left the barracks toward the west. The motor vehicle Were seen. ** 4. On 26 April, about 40 single-engine aircraft Were parked at the field it 9 a. m. The two regiments are believed to have an authorized strength of 104 planes. It is believed that aircraft of a unit stationed at another airfield were
